FACULTY MENTOR
Dow, Steven

PROJECT TITLE
Design for San Diego

PROJECT DESCRIPTION
This project seeks to create social computing applications to support collaboration in a city-wide civic design competition where participants innovate ideas for complex challenges facing San Diego. See d4sd.org

INTERNS NEEDED
1 BS Student and 1 MS Student

PREREQUISITES
Ideally they have experience with web-based programming. Full stack developers would be great, but not a strict pre-req.
