

### **FACULTY MENTOR**

Kenji Nomura

### **PROJECT TITLE**

Development of Low-Dimensional Oxide Semiconductor Devices

### **PROJECT DESCRIPTION**

Description: Fabrication and characterization of low-dimensional oxide semiconductor for electronic device.

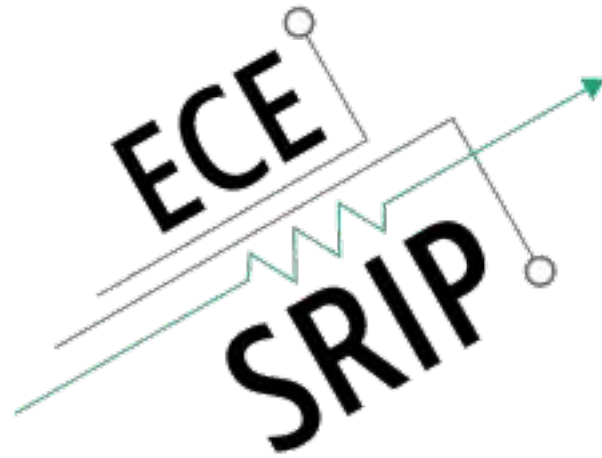

This project will be in person.

### **INTERNS NEEDED**

1 Student

### **PREREQUISITES**

1. Knowledge about of semiconductor material and devices

**FACULTY MENTOR**

Kenji Nomura

**PROJECT TITLE**

Development of Energy and Cost-Effective Thin-Film Transistor

**PROJECT DESCRIPTION**

Description: Fabrication and characterization of wide bandgap semiconductor and transistor.

This project will be in person.

**INTERNS NEEDED**

1 Student

**PREREQUISITES**

1. Knowledge about of semiconductor material and devices
