FACULTY MENTOR
Kenji Nomura

PROJECT TITLE
Development of Low-Dimensional Oxide Semiconductor Devices

PROJECT DESCRIPTION
Description: Fabrication and characterization of low-dimensional oxide semiconductor for electronic device.

This project will be in person.

INTERNS NEEDED
1 Student

PREREQUISITES
1. Knowledge about of semiconductor material and devices
**FACULTY MENTOR**
Kenji Nomura

**PROJECT TITLE**
Development of Energy and Cost-Effective Thin-Film Transistor

**PROJECT DESCRIPTION**
Description: Fabrication and characterization of wide bandgap semiconductor and transistor.

This project will be in person.

**INTERNS NEEDED**
1 Student

**PREREQUISITES**
1. Knowledge about of semiconductor material and devices
